SUMMARY

I'm Rishabh Pandey, a B.Tech CSE-AIML student with a strong interest in data analysis and problem-solving. I enjoy working with SQL, Python, and data visualization tools such as Power BI to uncover meaningful patterns from raw data. With a solid foundation in analytics, a growing knowledge of machine learning, and a curiosity to explore real-world datasets, I am eager to turn data into impactful decisions. I am also improving my skills in Data Structures and Algorithms (DSA) by solving problems in C++, focusing on core concepts like stacks, queues, and more.

EDUCATION

VIT Bhopal <i>B.Tech in Computer Science (AIML) – Current CGPA: 8.9/10</i>	Bhopal, India 2023 – 2027
Jagran Public School <i>Class 12th (CBSE) – Percentage: 88%</i>	Varanasi, India 2022

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL
Data Analysis & Visualization: Power BI, Excel
Database Management: MySQL, PostgreSQL
Libraries & Tools: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Git, Jupyter Notebook
Data Structures & Algorithms: Arrays, Linked Lists, Stacks, Queues, Recursion, Searching & Sorting
Statistical Analysis: Hypothesis Testing, Correlation, Regression

EXPERIENCE

AI Intern <i>AMASQIS.AI</i>	May 2025 – Present Remote
- Assisted in data preprocessing and cleaning for AI model training - Participated in model evaluation and performance analysis - Contributed to documentation of AI solutions and workflows	

PROJECTS

Startup Funding Analyzer <i>Data Analysis Dashboard</i>	Python, Streamlit, Pandas, Plotly
- Developed investment analysis system with 10K+ startup records - Created interactive visualizations of funding trends and heatmaps - Built investor matching algorithm with similarity scoring - Code Live Demo	
Retail Sales Analyzer <i>SQL Analytics Project</i>	MySQL
- Designed DB schema, wrote complex queries - Identified top products/revenue trends - Code	
Text Editor App <i>GUI Application</i>	Python, Tkinter, Pandas
- Developed editor with file/formatting features - Code
